CBEST® Math Exercises, Tutorials and Multiple Choice Strategies

Because this book's main objective is to foster and promote student development, it should appeal to those who advise, counsel, and teach undergraduate and graduate students, particularly those in psychology, education, and other social sciences. Along with a plethora of stimulating ideas for practice and research, the book contains the results of research having immediate applications to students' educational and career direction needs. Readers will find more than 90 articles in this book distributed across three significant challenges to students' development: the academic, occupational, and personal. Further, the material presented has been organized around three distinct approaches to these challenges: advising, career development, and field placement activities. The source for these articles is the official journal,

Teaching of Psychology, of Division Two of the American Psychological Association.

Using his signature, conversational writing style and straightforward presentation, Neil J. Salkind's best-selling *Tests & Measurement for People Who (Think They) Hate Tests & Measurement* guides readers through an overview of categories of tests, the design of tests, the use of tests, and some of the basic social, political, and legal issues that the process of testing involves. The Third Edition includes a new chapter on item response theory, new sections on neuropsychological testing, new cartoons, and additional end-of-chapter exercises. Free online resources accompany the text to make teaching easier and provide students with the practice tools they need to master the material.
