Everyday tasks like finding a street address or buying a train ticket can be an ordeal in Japan if you don't read kanji—the system of Japanese writing based on Chinese characters. Each lesson helps you master a new group of kanji, using an extremely effective approach that focuses on you, the learner, taking an active part. Introductory Quizzes introduce everyday situations where you encounter kanji. Vocabulary sections help you understand the readings and meanings of the kanji. New Character Charts teach you new kanji systematically—for each character you'll learn its meanings, its basic on-kun readings, its stroke order, common compounds, and derivations. Advanced Placement Exam Practice Questions for each lesson follow the format of the College Boards Japanese Language and Culture examination.

This user-friendly book is aimed at helping students of Mandarin Chinese learn and remember Chinese characters. At last—there is a truly effective and enjoyable way to learn Chinese characters! This book helps students to learn and remember both the meanings and the pronunciations of over 800 characters. This otherwise daunting task is made easier by the use of techniques based on the psychology of learning and memory. Key principles include the use of visual imagery, the visualization of short "stories," and the systematic building up of more complicated characters from basic building blocks. Although Learning Chinese Characters is primarily a book for serious learners of Mandarin Chinese, it can be used by anyone with an interest in Chinese characters, without any prior knowledge of Chinese. It can be used alongside (or after, or even before) a course in the Chinese language. All characters are simplified (as in mainland China) but traditional characters are also given, when available. Key features: Specially designed pictures and stories are used in a structured way to make the learning process more enjoyable and effective, reducing the need for rote learning to the absolute minimum. The emphasis throughout is on learning and remembering the meanings and pronunciations of the characters. Tips are also included on learning techniques and how to avoid common problems. Characters are introduced in a logical sequence, which also gives priority to learning the most common characters first. Modern simplified characters are used, with pronunciations given in pinyin. Key information is given for each
