A Handbook of Food Packaging
- Frank A. Paine, Heather Y
...

This is the second edition of a successful title first published in 1983 and now therefore a decade out of date. The authors consider the development of the right package for a particular food in a particular market, from the point of view of the food technologist, the packaging engineer and those concerned with marketing.

This handbook has been prepared as a procedural guide for compliance testing of net content statements on packaged goods. Compliance testing of packaged goods is the determination of the conformance of the results of the packaging, distribution, and retailing process (the packages) with specific legal requirements for net content declarations.
