Hundreds of maths worksheets for children ages 7 and 8. Covering times tables, written methods of addition and subtraction and much more. Don't forget our challenges and investigations!

~~Year 3 Maths Worksheets (age 7-8) — URBrainy.com~~

Help your child master early math basics. The lessons in this Grade 1-2 workbook focus on practicing addition and subtraction facts and adding and subtracting with two-digit numbers (tens and ones). A range of activities from a “Break the Code” exercise with companion riddle, to more standard equations, help lock in learning.

Practicing addition and subtraction skills can be easy and fun with clear instructions, step-by-step examples, and colorful illustrations. Engaging activities teach and reinforce place value, regrouping, fact families, and more.

Kids learn and stay engaged, thanks to word problems, mazes, along with challenging math problems and gain the confidence to improve their math comprehension and testing.

Prepare your child for math success! The proven activities in Math Readiness K-1 reinforce a variety of important early math skills, including counting, number order, shapes, addition,

subtraction, and more. (Ages: 4-6 | 32 Pages | Dimensions: 11x8.5in.)

140 PAGES OF ADDITION AND SUBTRACTION WITH PICTURES AND NUMBERS The workbook is designed in a such a way so that your child will progress to more difficult addition and subtraction questions with ease. This math workbook consists of 6 parts: ADDITION: The two numbers being added are represented by a corresponding number of pictures. The total is represented by pictures and the kids have to write the correct number. ADDITION: The two numbers being added are represented by a corresponding number of pictures. For the total, the kids are required to choose one of two results represented by numbers and a corresponding number of pictures. ADDITION: The two numbers being added are represented by a corresponding number of pictures and the kids are required to write the correct answer. without any help, but only by looking back at the two numbers being added. ADDITON: Addition with one number unknown. The kids are given the total represented by a number and a corresponding number of pictures and one of the numbers being added. They have to figure out the outhr number. SUBTRACTION: The kids are presented with a line of pictures. The objects being subtracted are crossed out. The problem is also represented by numerals only. The kids simply have to count the objects that are not crossed out to get the final result. SUBTRACTION: the kids are presented with a line of pictures along with the numerical representation of the subtraction problems. The kids are required to cross out the objects that are being subtracted and count the remaining number of objects to get the final result.

School Zone's step-by-step introduction of math concepts and skills makes learning to add and
