Proper formulation of diets for horses depends on adequate knowledge of their nutrient requirements. These requirements depend on the breed and age of the horse and whether it is exercising, pregnant, or lactating. A great deal of new information has been accumulated since the publication 17 years ago of the last edition of Nutrient Requirements of Horses. This new edition features a detailed review of scientific literature, summarizing all the latest information, and provides a new set of requirements based on revised data. Also included is updated information on the

composition of feeds, feed additives, and other compounds routinely fed to horses. The effects of physiological factors, such as exercise, and environmental factors, such as temperature and humidity, are covered, as well. Nutrient Requirements of Horses also contains information on several nutritional and metabolic diseases that horses often have. Designed primarily as a reference, both practical and technical, Nutrient Requirements of Horses is intended to ensure that the diets of horses and other equids contain adequate amounts of nutrients and that the intakes of certain nutrients are not

so excessive that they inhibit performance or impair health. This book is primarily intended for animal nutritionists, veterinarians, and other scientists; however, individual horse owners and managers will also find some of this material useful. Professors who teach graduate courses in animal nutrition will find *Nutrient Requirements of Horses* beneficial as a textbook.

into five volumes. This Volume Two deals with various fields of social work in India and is the Fifth revised edition of the earlier volume published in 1967. The fields covered have been discussed under five heads. Part One deals with concept and scope of social work as well as history of social work in U.K., U.S.A. and India. Part Two examines the social welfare services being provided for children, women, youth, labour and backward classes; urban and rural welfare; family welfare and housing. Part Three deals with social security measures and services for the handicapped. Part Four is concerned with
