C15 Oil Pan Bolt

Can anyone tell me what the oil pan bolt specs are for a C15 6NZ. I've seen specs from fellow drivers or mechanics that range from 35 lbs to 53lbs. I would appreciate an accurate cat spec if anyone knows. Thanks

Spotting exactly where the oil is coming out around the oil pan gasket of a C13 is very hard. But as long as it is not running down the rear cover, the pan gasket is most likely leaking. The torque for the oil pan bolts is 41 foot pounds. It is possible that you can re torque the pan bolts and stop the leak. I would give it a try.
