This popular text provides an in-depth introduction to debates within post-colonial theory and criticism. The readings are drawn from a diverse selection of thinkers both historical and contemporary.

How do states distinguish friends from enemies, partners from competitors, and communities from outsiders? Community Under Anarchy shows how the development of common social identities among political elites can lead to deeper, more cohesive forms of cooperation than what has been previously envisioned by traditional theories of international relations. Drawing from recent advances in social theory and constructivist approaches, Bruce Cronin demonstrates how these cohesive structures evolve from a series of discrete events and processes that help to diminish the conceptual boundaries dividing societies. Community Under Anarchy supports this thesis through a new and original interpretation of the Concert of Europe, the Holy Alliance, and the political integration of Italy and Germany. In the wake of the upheavals created by the French Revolution and the revolutions of 1848, political elites helped to validate new forms of governance by creating transnational reference groups from which they could draw legitimacy. As a result, European states were able to overcome the polarizing effects of anarchy and create a concert system, a common security association, and two amalgamated security communities. The empirical cases demonstrate how socially derived identities can shape state preferences and create new roles for state leaders.

Equally suitable for undergraduates and specialists in the humanities, this collection provides an in-depth introduction to debates within post-colonial theory and criticism. The readings are drawn from a diverse selection of Third World and Western thinkers, both historical and contemporary. "Post-colonialism" is taken by the editors to include Third World and diasporic experience; like "colonialism," it is understood to contain a complex set of cultural, ethnographic, political, and economic processes and conflicts. This volume explores such issues as the nature of colonized cultures and anti-colonial resistance; subaltern historiography; constructions of Western subjectivity, knowledge, and gender; the formation of post-colonial intellectuals; the metropolitan institutionalization of post-colonialism; neo-colonialism; and the nature of minority and post-colonial identity and discourse. One section is devoted to the application of theoretical formulations to cultural criticism, and contains a number of textual analyses. A general introduction to the volume as well as introductions to each section provide historical, theoretical, and political contexts for the readings. The book concludes with an extensive bibliography.

Provides an in-depth introduction to debates within post-colonial theory and criticism. The many contributors include Frantz Fanon, Amilcar Cabral, Gayatri Chakravorty Spivak, Homi Bhabha, Edward Said, Anthony Giddens, Anne McClintock, Stuart Hall, Paul Gilroy, and bell hooks.

This book on post-colonial theory has a wide geographic range and a breadth of historical perspectives. Central to the book is a critique of the very idea of the 'postcolonial' itself.

This popular text provides an in-depth introduction to debates within post-colonial theory and criticism. The readings are drawn from a diverse selection of thinkers both historical and contemporary.

Colonialism/Postcolonialism is a comprehensive yet accessible guide to the historical and theoretical dimensions of colonial and postcolonial studies. Ania Loomba deftly introduces and examines: key features of the ideologies and history of colonialism the relationship of colonial discourse to literature challenges to colonialism, including anticolonial discourses recent developments in postcolonial theories and histories issues of sexuality and colonialism, and the intersection of feminist and postcolonial thought debates about globalization and postcolonialism Recommended on courses across the academic disciplines and around the world, Colonialism/Postcolonialism has for some years been accepted as the essential introduction to a vibrant and politically charged area of literary and cultural study. With new coverage of emerging debates around globalization, this second edition will continue to serve as the ideal guide for students new to colonial discourse theory, postcolonial studies or postcolonial theory as well as a reference for advanced students and teachers.

The first book of its kind in the field, this timely introduction to post- colonial theory offers lucid and accessible summaries of the major work of key theorists such as Frantz Fanon, Edward Said,Homi Bhabha and Gayatri Spivak. The Guide also Explores the lines of resistance against colonialism and highlights the theories of post-colonial identity that have been responsible for generating some of the most influential and challenging critical work of recent decades. Designed for undergraduates and postgraduates taking courses related to colonialism or post-colonialism, the book summarises the major topics and issues as well as covering the contributions of major and less familiar figures in the field.

This seminal work—now available in a 15th anniversary edition with a new preface—is a thorough introduction to the historical and theoretical origins of postcolonial theory. Provides a clearly written and wide-ranging account of postcolonialism, empire, imperialism, and colonialism, written by one of the leading scholars on the topic Details the history of anti-colonial movements and their leaders around the world, from Europe and Latin America to Africa and Asia Analyzes the ways in which freedom struggles contributed to postcolonial discourse by producing fundamental ideas about the relationship between non-western and western societies and cultures Offers an engaging yet accessible style that will appeal to scholars as well as introductory students

Postcolonial Theory is a ground-breaking critical introduction to the burgeoning field of postcolonial studies. Leela Gandhi is the first to clearly map out this field in terms of its wider philosophical and intellectual context, drawing important connections between postcolonial theory and poststructuralism, postmodernism, marxism and feminism. She assesses the contribution of major theorists such as Edward Said, Gayatri Spivak and Homi Bhabha, and also points to postcolonialism's relationship to earlier thinkers such as Frantz Fanon and Mahatma Gandhi. The book is distinctive in its concern for the specific historical, material and cultural contexts for postcolonial theory, and in its attempt to sketch out the ethical possibilities for postcolonial theory as a model for living with and 'knowing' cultural differences non-violently. Postcolonial Theory is a useful starting point for readers new to the field and a provocative account which opens possibilities for debate.
