be the authoritative textbook on corporate financial reporting. The new edition has been thoroughly updated to reflect the numerous and ongoing reforms as a result of Australia's adoption of IFRSs. The text succinctly documents recent adjustments by the IASB/AASB in respect to the presentation of financial statements, accounting for intangible assets, accounting for income tax and the new reporting recommendations for business combinations under Phase II. The text provides students with a comprehensive and practical grounding in the practice and principles of company accounting, essential information on why and how company accounting entries and disclosures are made, and the process of business combination for a corporate group. New to this Edition New chapters on Corporate Governance, Leases and Equity Accounting. Chapter 8 Business Combinations - outlines proposed changes to ASSB3 as a result of the Exposure Draft of Proposed Amendments to IFRS3. Revised to accord with changes in AASB as a consequence of continuing reforms with IFRS. More 'Learning Check' summaries in all chapters reiterate and summarise important concepts. New 'Student Activity Section' in each chapter contains a summary, demonstration problems, discussion questions, case studies, graded exercises and problems. Reorganised end-of-chapter sections contains more diverse activity scenarios for students in an attempt to develop a broader skill base. Features

'Learning Checks' support chapter learning objectives and summarise key knowledge for students. They appear throughout each chapter and are ideal for self-study purposes. Thorough illustrative examples and demonstration problems with various examples supported with step-by-step narrations.

Company Accounting, 11th Edition (Leo et al.) has been updated to reflect the various and ongoing reforms as a result of Australia's adoption of the International Financial Reporting Standards (IFRS). The text provides students with a comprehensive overview of the practice and principles of company accounting and helps them develop the practical grounding to reinforce their understanding. The 11th edition presents essential 'must know' information on accounting for a corporate entity and the requirements for externally disclosing the financial position of the entity.

With increased competition for external funding, technological advancement, and public expectations for transparency, not-for-profit and non-governmental organizations are facing new challenges and pressures. While research has explored the roles of accounting, accountability, and performance management in nonprofit organizations, we still lack evidence on the best practices

these organizations implement in the areas of accountability and performance management. This book collects and presents that evidence for the first time, offering insights to help nonprofits face these new challenges head-on. Performance Management in Nonprofit Organizations focuses on both conventional and contemporary issues facing nonprofits, presenting evidence-based insights from leading scholars in the field. Chapters examine the design, implementation, and working of accounting, accountability, governance, and performance management measures, providing both retrospective and contemporary views, as well as critical commentaries on accounting and performance related issues in nonprofit organizations. The book's contributors also offer critical commentaries on the changing role of accounting and performance management in this sector. This research-based collection is an interesting and useful read for academics, practitioners, students, and consultants in nonprofit organizations, and is highly accessible to accounting and non-accounting audiences alike.
