2017 is the 15th anniversary of the creation of Bob, Man on the Moon, celebrate with this anniversary edition. Enjoy the stunning artwork Simon Bartram has become famous for. Bob is everyone's favourite man on the moon; follow him on his daily adventures. Bob has a special job - looking after the moon. He keeps it clean and entertains passing space tourists as well as giving guided tours. He knows everything about the moon and that there is definitely no such thing as aliens!

Rufus is a monster. But he doesn't feel like a Tip-Top monster. Every monster book he's read says that monsters are supposed to scare Peoply People and there aren't any of those in his desert. Rufus decides that there is only one thing for it. He's going to have to find a Peoply Person to scare. But where in the world are they all hiding? The bestselling author of Man on the Moon and Bob's Best Ever Friend returns with a new, stink-tastic character.

Saying good-bye after a visit with his beloved grandfather who reminds him that they both live under the same moon, young Max is astonished to observe the moon following him home and is comforted by the knowledge that the moon will always shine above everyone he loves.

Every year, Queen Battleaxe picks one unlucky astronaut to host her birthday party and now Bob has the horrible honour The party has to be super-amazing, otherwise the Queen will have the moon towed away. Can Bob stage a birthday bash to remember?

From brightly coloured corals to shimmering shoals of fish, the diversity of life on a coral reef is celebrated in this visually stunning picture book with a strong ecological message about the need to protect this most precious of environments. Through gentle rhyme and intricately etched artwork, it explores the life cycle, diversity and colour of the coral reef ecosystem, as well as the threats the reef faces and what we can do to save it. With each page packed full of delightful sea creatures to discover and enjoy, this is a lyrical and engaging way to learn about the life cycle of a coral reef.

Before Jacques Cousteau became an internationally known oceanographer and champion of the seas, he was a curious little boy. In this lovely biography, poetic text and gorgeous paintings combine to create a portrait of Jacques Cousteau that is as magical as it is inspiring.

Aaron W. Marrs challenges the accepted understanding of economic and industrial growth in antebellum America with this original study of the history of the railroad in the Old South. Drawing from both familiar and overlooked sources, such as the personal diaries of Southern travelers, papers and letters from civil engineers, corporate records, and contemporary newspaper accounts, Marrs skillfully expands on the conventional business histories that have characterized scholarship in this field. He situates railroads in the fullness of antebellum life, examining how slavery, technology, labor, social convention, and the environment shaped their evolution. Far from seeing the Old South as backward and premodern, Marrs finds evidence of urban life, industry, and entrepreneurship throughout the region. But these signs of progress existed alongside efforts to preserve traditional ways of life. Railroads exemplified Southerners' pursuit of progress on their own terms: developing modern transportation while retaining a conservative social order. Railroads in the Old South demonstrates that a simple approach to the Old South fails to do justice to its complexity and contradictions. -- Dr. Owen Brown and Dr. Gale E. Gibson
