This short study of the life of the Blessed Prophet of Islam () for high school and above is neither a new historical analysis nor yet another purely devotional sketch of the earthly career of God's last prophet. Written by Islam 's best ambassador in the West, this biography of the Prophet () takes the spiritual dimensions into consideration as well as the more factual and historical elements of the life of the person who changed human history.

The Reconstruction of Religious Thought in Islam (1930) is Muhammad Iqbal's major philosophic work: a series of profound reflections on the perennial conflict among science, religion, and philosophy, culminating in new visions of the unity of human knowledge, of the human spirit, and of God. Iqbal's thought contributed significantly to the establishment of Pakistan, to the religious and political ideals of the Iranian Revolution, and to the survival of Muslim identity in parts of the former USSR. It now serves as new bridge between East and West and between Islam and the other Religions of the Book. With a new Introduction by Javed Majeed, this edition of The Reconstruction opens the teachings of Iqbal to the modern, Western reader. It will be essential reading for all those interested in Islamic intellectual history, the renewal of Islam in the modern world, and political theory of Islam's relationship to the West.

Exploring the beliefs, history and politics of Islam, The Britannica Guide to the Islamic World is a clear and unbiased reference resource, compiled by experts in the field. It introduces the ideas as well as the places at the centre of one of the most important religions of our time. Founded in the seventh century by the prophet Mohammed, Islam has now spread across the world and every culture. Exploring Islamic history, beliefs and scriptures, it will be an invaluable and comprehensive guide to Muslim faith. In addition, the Guide reveals the role that Islam plays today including the conflict in the Middle East, the rise of Islamism, and the divisions between the Sunni and Shi ite sects. As the Islamic World becomes the focus of politicians and the media, it is more important than ever to have a reliable and accurate introduction to this controversial topic.

Summary: 'Since the rise of the Taliban and Al Qaeda, the traditional Islamic schools known as the madrasa have frequently been portrayed as hotbeds of terrorism. For much longer, the madrasa has been considered by some as a backward and petrified impediment to social progress. However, for an important segment of the poor Muslim populations of Asia, madrasas constitute the only accessible form of education. This volume presents an overview of the madrasas in countries such as China, Indonesia, Malaysia, India and Pakistan.'--Publisher description.

Sufism is a religion which emphasizes direct knowledge of the divine within each person, and meditation, music, song, and dance are seen as crucial spiritual strides toward attaining unity with God. Sufi paths of mysticism and devotion, motivated by Islamic ideals, are still chosen by men and women in countries from Morocco to China, and there are nearly one hundred orders around the world, eighty of which are present and thriving in the United States. The Chishti Sufi order has been the most widespread and popular of all Sufi traditions since the twelfth-century. Sufi Martyrs of Love offers a critical perspective on Western attitudes towards Islam and Sufism, clarifying its contemporary importance, both in the West and in traditional Sufi homelands. Finally, it provides access to the voices of Sufi authorities, through the translation of texts being offered in English for the first time.

Alphabetically arranged entries cover 8,500 battles, from the Battle of Megiddo in 1468 BC to the American invasion of Iraq.

This book introduces some of the most important military figures and events in Islamic military history.
