New to Power BI and trying to understand how to use a matrix. For several tasks I would like to use the data in a similar way to a traditional pivot table, but keep hitting hurdles. For example if I create a matrix with the primary determinant in the Rows field, and a list of data in the Values field, what do I need to do to return ALL the values not the first (or last).

Matrix only returning first or last entries - Power BI

Hi All, I'm trying to create a column that calculates the original due date for a set of items that have due dates that can be extended over and over again. For example, in this table, I want the "Original Due Date" column to look up the earliest date from the "Due Date" column based on the "Item"...

DAX Formula to Return First Date Based on Other ... - Power BI

when i use Card for data visualization filter, it only shows the first or last field from the column. is there a way, we can show that as "All". also when i click on charts or slicer my bar charts info gets faded, which apparently i don't wish to see it, how can we make sure that if i click any of the filters ,charts/bar graph shows as full(see below)

When imagination becomes habit, it can transform your work and your life The best corporations know that innovative thinking is the only competitive advantage that cannot be outsourced. The best schools are those that create cultures of imagination. "When your imagination rules your heart, you will receive what you have daydreamed and nightdreamed." How often do you use your imagination to consider life beyond the normal, the tedious, and the routine? Do you allow yourself to dream of a better life and imagine a more joyful existence and a deeper spiritual experience? Author Dewey Friedel leads you into the realm of imagination that drives the purpose of your life. Through years of successful living, Pastor Friedel has learned how to Imagine That! and he shares his findings with you. Discover how to: Develop your creativity. Define a clear-cut goal. Stir a powerful desire to fulfill your goal. Experience dreams and visions. See the invisible. In the secret place of prayer, the eyes of your heart will open and you will begin to see God's plan for you-revealed through the power of your imagination. While we do not look at the things which are seen, but at the things which are not seen. For the things which are seen are temporary, but the things which are not seen are eternal (2 Corinthians 4:18).

Too often believers pray for healing but never experience it. They pray for prosperity but never receive it. Why? Because they don't know how to use their imagination the way God intended. They don't see themselves healed. They don't see themselves prosperous. They don't see themselves victorious. In The Power of Imagination, Andrew Wommack will unlock the power of your imagination and explain how you can put it to work giving you hope for the future. Without it, you'll never fulfill God's plan for your life. Circumstances will divert you, and hardship will steal from you. But with it, you won't be able to lose for winning! Never underestimate the power of your imagination!

About The Book: Out of Our Minds - There is a paradox here. Throughout the world, companies and organizations are trying to compete in a world of economic and technological change that is moving faster than ever. They urgently need people who are creative, innovative and flexible. Too often they can t find them. Why is this? What s the real problem - and what should be done about it? Out of Our Minds answers these three vital questions for all organizations.

Your Creative Power is a guide to harnessing and expressing your creative potential and leadership in the workplace.

Creativity is critical. Out of Our Minds explores creativity: its value in business, its ubiquity in children, its perceived absence in many adults and the phenomenon through which it disappears — and offers a groundbreaking approach for getting it back. Author Sir Ken Robinson is an internationally recognised authority on creativity, and his TED talk on the subject is the most watched video in TED's history. In this book, Sir Ken argues that organisations everywhere are struggling to fix a problem that originates in schools and universities. Organisations everywhere are competing in a world that changes in the blink of an eye – they need people who are flexible enough to adapt, and creative enough to find novel solutions to problems old and new. Out of Our Minds describes how schools, businesses and communities can work together to bring creativity out of the closet and realise its inherent value at every stage of life. This new third edition has been updated to reflect changing technologies and demographics, with updated case studies and coverage of recent changes to education. While education and training are the keys to the future, the key can also be turned the other way; locking people away from their own creativity. Only by actively fostering creativity can businesses unlock those doors and achieve their true potential. This book will help you to: Understand the importance of actively promoting creativity and innovation. Discover why creativity stagnates somewhere between childhood and adulthood. Learn how to re-awaken dormant creativity to help your business achieve more. Explore ways in which we can work together to keep creativity alive for everyone. Modern business absolutely demands creativity of thought and action. We're all creative as children — so where does it go? When do we lose it? Out of Our Minds has the answers, and clear solutions for getting it back.

Imagine your frustrated four-year-old calming her own anger with a few simple breaths. Picture your fourth grader visualizing an ice blue pillow to cool his hot headaches. Or your worried eleven-year-old improving her concentration by consulting a personal wizard to help with homework. The Power of Your Child's Imagination will show you how to empower your child with easy, effective, and creative skills for surviving-and thriving-in a stressful world. This indispensable guide provides nine simple tools to help children cope with stress and anxiety by tapping into their imagination to access their own natural strength and confidence. Dr. Reznick illustrates how each tool can be used every day to deal with problems such as: * Stress-induced headaches and stomachaches * Phobias, panic attacks, and social anxiety * Bed-wetting and sleepless nights * Separation anxiety and fear of the unknown * Coping with death, divorce, and other losses * Hurt, frustration, and anger * Trouble with schoolwork and concentration * Sibling rivalry and school-yard squabbles
