How Medical Tourism

Is Helping Developing

Countries. Dec 11,

2015. According to

the Medical Tourism

Association, Medical

Tourism is where

people who live in one

country travel to

another country to

File Type PDF

Medical

receive medical, dental and surgical care while at the same time receiving equal to or greater care than they would have in their own country, and are travelling for medical care because of affordability, better access to care or a higher level of quality of care.

In developing countries of tourist destinations, development in medical tourism can retain skilled medical professionals from migration abroad because it raises their wages. However, the expansion of medical tourism could lead to an outflow of skilled health workers from

File Type PDF

Medical

public healthcare
sector to the medical
tourism sector, and
could crowd out the
medical provision in
the public healthcare
sector.
