Miracles of Book and
Body is the first book
to explore the

intersection of two key genres of sacred literature in medieval Japan: sutras, or sacred Buddhist texts, and setsuwa, or "explanatory tales," used in sermons and collected in written compilations. For most of East Asia, Buddhist sutras were written in Classical Chinese and

inaccessible to many devotees. How, then, did such devotees access these texts?

Charlotte Eubanks argues that the medieval genre of "explanatory tales" illuminates the link between human body (devotee) and sacred text (sutra). She focuses on the sensual aspects of

religious experience
and on the act of
reading, understood
as the literal

incorporation of sutra
texts into the body
and thus a bridge
between text and
flesh. Eubanks's
highly original
approach to
understanding
Buddhist textuality
also looks beyond

Japan to explore pre-modern book history, practices of preaching, miracles of reading, and the Mahayana Buddhist "cult of the book."

This young adult
steampunk series

Certainly, they learn
