### The Ideal Result: What It Is and How to Achieve It, Book ...

The Ideal Final Result describes the solution to a technical problem, independent of the mechanism or constraints of the original problem. The ideal system occupies no space, has no weight, requires no labor, requires no maintenance. The ideal system delivers benefit without harm. The IFR has the following 4 characteristics:

### The Ideal Final Result: TutorialThe Triz Journal

What is the IFR. The ideal final result (IFR) is one of the tools used during theproblem definitionphase of TRIZ (Theory of Inventive Problem Solving). It describes a solution to a problem free of any mechanisms or constraints from the original problem or issue. This is similar to "re-engineering" in the process management world, in which processes are "blown-up" and revamped.
