The Stand is a post-apocalyptic dark fantasy novel written by American author Stephen King and first published in 1978 by Doubleday. The plot centers on a pandemic of a weaponized strain of influenza that kills almost the entire world population. The few survivors, united in groups, establish a new social system and engage in confrontation with each other.

The Stand - Wikipedia

The Stand was epic in its original form, and this edition, with expanded story lines and restored cuts lives up to the original. All of Stephen King's books are excellent, but this one is a parable for modern times of the age-old battle between good and evil. Read it again if you have read it before.
