Sewerage

The Sewerage Rehabilitation Manual planning procedure is described, and experience of its implementation since 1984 is discussed. Reference is made to changes in the water industry brought about by privatization, and to recent European and UK legislation. The current status of the rehabilitation market is then discussed and possible future developments are outlined.

Urban Sewerage Rehabilitation in the UK - HURLEY - 1994 ...

The manual is in three sections (volumes), as follows: I A Rational Approach. The recommended procedures and implementation issues are outlined. The background and information leading to this approach to sewerage rehabilitation are summarised. II Planning. The various phases of investigation and planning are set out in detail.
